SUMMARY

Computer Science student with a 93 GPA, enrolled in a flexible evening program and available for full-time employment. Software developer with a strong foundation in machine learning, algorithms, and data science, combining software development experience with hands-on work in ML and NLP using Python, including custom algorithm implementation, feature engineering, hyperparameter tuning, and model evaluation. Proficient in leveraging modern AI tools to accelerate development, problem-solving, and code refinement while maintaining technical ownership.

EDUCATION

B.Sc. Computer Science Student

Holon Institute of Technology - HIT.

📅 10/2024 - Present 📍 Holon, Israel.

GPA : 93 | 1+ Year Remaining

Relevant Coursework :

- Intro to Computer Science - 100, Intro to Computer Systems - 95.
- Machine Learning - 100, Algorithms 2 - 100, Database Systems - 95.
- Introduction to Data Science - 94, Data Structures - 90.

Full Stack Developer Bootcamp

Coding Academy.

- 640-hour intensive training covering front-end, back-end, and cloud technologies
- Developed multiple projects using modern frameworks in solo and collaborative workflows

High-School Education

Ginsburg High School, Yavne.

Graduated with a **104+ Bagrut average**, majoring in **Computer Science and Biology**.

RELEVANT COURSES & TECHNOLOGIES

Programming Course - JavaScript

Coding Academy.

- A complete understanding of how to develop an end-to-end Full Stack program by myself or in a collaboration with a team using various technologies such as :
- HTML, CSS, JavaScript, Vue.js, React, Angular.
- Node.js, Express, REST API'S, MongoDB, MySQL.
- GitHub.

Computer Science - C#

5 points studies.

- Developed a strong understanding of C# through three years of extensive learning in high school, mastering correct semantics, object-oriented programming, and core data structures such as stacks and queues. Applied these concepts to build a fully functional C# project, demonstrating a solid grasp of the language, coding best practices, and problem-solving skills.

SKILLS

Programming Languages

C, C++, C#, Python, JavaScript, TypeScript, HTML, CSS.

Technologies & Frameworks

Node.js, Express, Vue.js, React, NumPy, scikit-learn, MongoDB, MySQL.

Tools & Concepts

Git, GitHub, REST APIs, TCP/IP, Sockets, Multithreading, Machine Learning.

PROJECTS & EXPERIENCE

Spam Detection - Natural Language Processing

Machine Learning Project

- Developed an NLP pipeline for SMS spam detection using a custom NumPy-based KNN classifier, TF-IDF, N-grams, class balancing, and hyperparameter tuning, achieving a **0.926 macro F1-score**.

PySocket Chat System - Python

Computer Communication Networks Project

- Built a multi-client TCP chat application using sockets and threading, with real-time messaging, a Tkinter GUI, chat logging, and automated client-server management.

Satisfy - JavaScript

Full-Stack JavaScript Project

- A Spotify-inspired application using Vue.js, Express, MongoDB and web sockets technologies focused on creating the responsive and intuitive user experience

InvestingHelper - JavaScript

Front-End Paid Project

- Developed a custom finance calculator and advisory platform for a paying client, delivering tailored investment recommendations with a seamless, responsive experience across web and mobile.

Restaurant Management - C#

C# Project

- Developed a restaurant management model as the final project of three years of C# learning, integrating advanced techniques, best practices, and problem-solving strategies.

MILITARY SERVICE

Israel Defence Forces | Dec 2019 - Aug 2022

Commanding Course at "Bahad 13".

Commander at a Military Court - Overseeing 15 soldiers.

"Regev" - Advanced commanding course at "Bahad 13".

Served as a Non-Commissioned Staff Officer, overseeing 60 soldiers and managing unit operations, vehicle fleets, infrastructures, coordinating with officers and professionals to solve problems and deficiencies.

ENGLISH

Native-Level English proficiency.

Achieved a perfect 150/150 score on the AMIRAM English proficiency test for academic English.

Completed accelerated 5-point English studies, achieving a 96 in 11th grade.
